

YESict

Young
Entrepreneurial
Skills by ICT

empowered by anict

ON THE WAY TO YESICT

The 4 main public

The YESict program targets the following publics :

Children from 11 to 15 years old:

They all have the potential to become entrepreneurs, we just have to teach them HOW

Educational Staff:

To integrate new skills and knowledge concerning entrepreneurship to support a child's journey.

Parents:

They are the main support in their children professional elevation and they encourage them to realise their dreams in their future

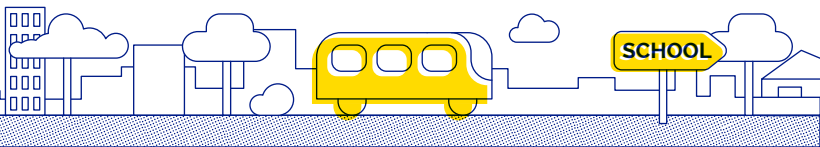

Educational authorities:

To ensure that entrepreneurial skills are integrated in school programs from the youngest age.

Create his own business cannot only be an adult's dream! YESict develops innovative pedagogical methodology to enhance digital integration in learning and in teaching with a learner-centred focus.

Approximately 160 children from 8 classes, 20 teachers and 580 participants and agents of school education will participate in this experiment.

WHO?

France
aNTIC

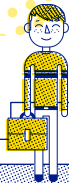

Denmark
VÆKSTHUS SJÆLLAND

Austria
FH-JOANNEUM

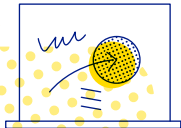

Spain
MGEP & EHI

Cyprus
EDEX & SYNTHESIS

YESict is led by aNTIC and involves a consortium of 6 partners in Europe with complementary expertises.

WHAT?

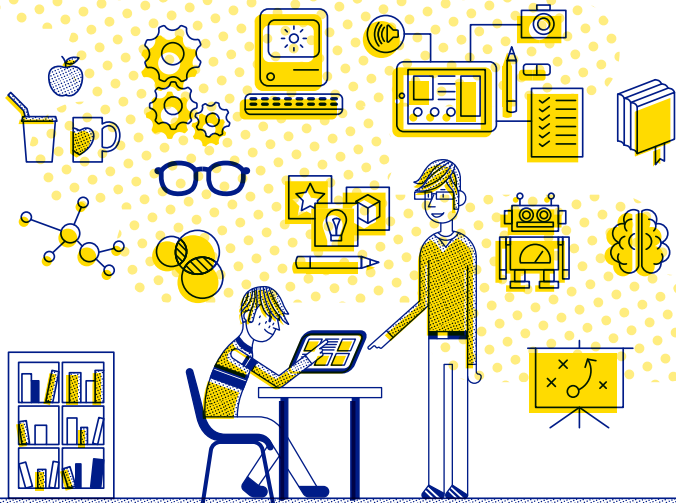

YESict is an experimentation to foster entrepreneurship skills by developing both entrepreneurship and digital competences for children (11>15yrs) and teachers.

HOW?

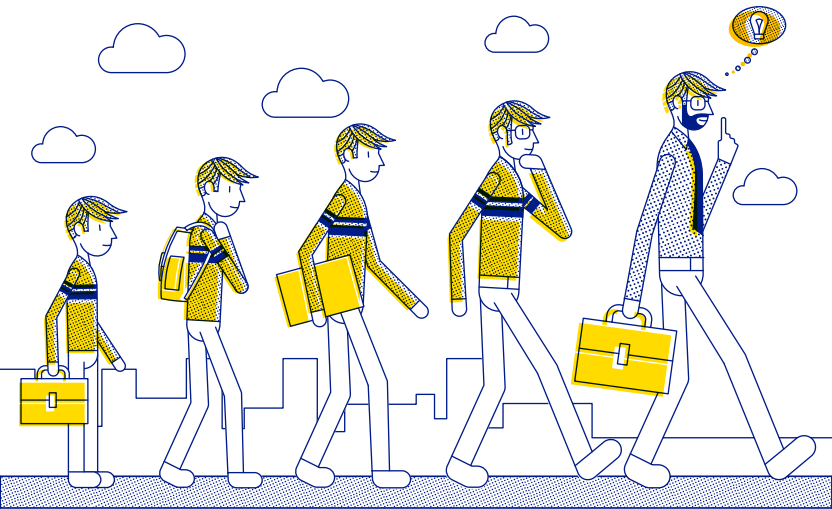

Learning by doing

YESict designs an innovative educational method using ICT based tools which analyses results.

AMBITION

Today's children are tomorrow's leaders! Make it happen!
Long term, YESict aims to integrate these transversal skills in the school model teaching
to promote entrepreneurship among partners and participants.
